

TalkRPN cell - centreline skeleton

No stroke width, no slant. Origin is the top-left centreline corner; x right, y down.
THE UNIT: segment E to segment B/C is 1. The HP-01's centreline box (53.5 x 91.5) divided by 53.5, so the centre axis is exactly 0.5.
28 bars + COL1 + COL2 + DP + COMMA = 32 elements; mask is a Long. Blue: A3/D3 are ALTERNATIVES to A4/D4; RPAR is the whole right paren.
Segments meet flush - no gaps, unlike the DL-3422. TalkRpnFont.kt is the source of truth.

DOT CENTRES	COL1	0.500, 0.350	upper colon dot; also dots i and j
	COL2	0.500, 1.379	lower colon dot, colon only
	DP	1.482, 2.037	decimal point, outside the cell to the right
	COMMA	1.482, 2.037	same centre, plus a tail down and left
		radius = STROKE = 0.159, so diameter 0.318	

CENTRELINE BOX	1.000 wide x 1.710 tall	aspect 0.585
	2.463 tall including the descender	
PITCH	2.430	origin to origin; minus 1 IS the clearance between cells
VPITCH		floor is 2.622, the ink height - below that descenders reach the next row
SLANT	7.5 degrees,	applied at render

RELATIONSHIPS

hook radius = hook start x = 0.136, so each arc is tangent to both bar and column
 F1 top = 0.136 = where A3 lands. E1 bottom = 1.575 = where D3 lands.
 F2 and E2 are the stubs that carry the left column out to the corner when it is square.
 B = C = 0.855: the right column is undivided at the corners, which is what makes a 4 lopsided.
 N and O are both inset 0.064 from the columns - one constant, applied to both sides.

THE THREE LEFT-COLUMN ENDINGS

square A4 + F2 most letters
 hooked A3 + F1 0 2 3 5 7 8 9, A C G O Q S, (& and @ (F2 dark)
 short F1 alone digit 4, no A at all - left side sits 0.136 lower than the right

WHY THE LETTER V IS DRAWN SIDEWAYS

A textbook V is two arms meeting at the bottom centre. The left arm exists - segment J runs from the left column at the middle down to the bottom centre - but no mirrored segment exists on the right. So the letter V is the left column plus the full slash (segment I into segment L), as on the DL-3422. A mirror of segment J would allow a textbook V and a pointier W.

TalkRPN character set
